# Fill in the front cover

Your thesis also needs a front cover with the correct information. It is the same template regardless of your thesis or degree project level.

You need to download and fill in the University's official front cover, then convert the cover to pdf and finally merge it with your thesis.

https://www.hh.se/download/18.5c19540017bff1915b642b64/1634302334440/thesis-front-cover.docx

Once filled in, you have to save the PDF as “thesis-front-cover.pdf” and save it to “thesis_template_hh/FrontBackMatter/gfx/” folder.
